

We at [Organization] are committed to (a) managing and investing in our physical assets to create wealth for our shareholders, employees, and other stakeholders and (b) developing a sustainable business focused on health, safety, and environmental compliance.

We shall achieve these goals by establishing, documenting, implementing, maintaining, and continually improving an Asset Management System (AMS).

An AMS is a set of documented policies, processes, and procedures used by [Organization] to ensure that it can fulfill the tasks required to accomplish its objectives. The AMS will govern how we plan, invest in, install, operate, maintain, and dispose of our assets and direct our equipment and infrastructure management for optimal value and sustainability.

This asset management policy, organized around six key business drivers, provides the directive by which we will manage our assets. We at [Organization] shall:

- Safety**
 - Continue to drive towards zero injuries.
 - Achieve industry recognition for safety performance.
- Environmental**
 - Achieve excellence in stewardship of our environment.
 - Eliminate non-compliant violations.
 - Meet regulatory performance targets.
 - Incorporate sustainability into our managerial decision-making process.
- Reliability**
 - Reduce equipment failures.
 - Ensure critical asset reliability.
 - Use the latest technologies to improve predictive maintenance and condition-based monitoring techniques continually.
 - Implement effective asset reliability techniques.
- Financial**
 - Obtain timely, complete, and accurate asset information.
 - Minimize costs of asset ownership while maintaining required service levels and sustaining infrastructure.
 - Optimize utilization of all resources.
- Workforce**
 - Develop an empowered, technically competent, proactive workforce.
 - Make [Organization] a great place to work.
 - Establish performance objectives in line with business objectives.
 - Attract, train, and retain high-caliber, fully qualified employees.
 - Facilitate sharing and institutionalization of knowledge.
- Capital Management**
 - Produce accurate financial forecasts.
 - Develop economic and efficient capital improvement plans.

Following this policy, we will set goals to continually improve how we manage assets throughout their lifecycles, focusing on the most critical asset risks and opportunities. This policy will be communicated to all [Organization] employees and those working under the direction of [Organization]. All are accountable for following this policy and working together to help [Organization] accomplish its objectives.
